

Roseline Dangazela

Junior Software Engineer (Full-Stack)

Pretoria, South Africa

+27 74 566 3399 · roseline.danga@gmail.com

PROFESSIONAL SUMMARY

Junior Software Engineer with hands-on experience building and maintaining modern web applications using **JavaScript, React/Next.js, and Python**. Strong foundation in full-stack development, RESTful APIs, databases, and CI/CD fundamentals. Passionate about building real products, learning quickly, and contributing in fast-paced startup environments like SnapSea.

TECHNICAL SKILLS

Frontend & Web

- JavaScript (ES6+)
- React.js & Next.js
- HTML5, CSS3
- API consumption & UI integration

Backend & Data

- Python, Django, Django REST Framework
- RESTful API design
- PostgreSQL & SQL
- CI/CD & basic server infrastructure

PROFESSIONAL EXPERIENCE

Procurement Administrator / Automation & Data Support

Hinc Group Pty Ltd | Pretoria, Gauteng

April 2024 – Present

- Built automation scripts using Python to process, validate, and analyse large datasets.
- Developed internal tools and logic-driven workflows to improve efficiency and data accuracy.
- Worked with structured data, reporting systems, and basic backend services.
- Collaborated with stakeholders to translate business needs into technical solutions.

Office Assistant / Junior IT Support

Chix Marketing | Pretoria, Gauteng

August 2020 – January 2024

- Supported internal systems, data management, and basic automation tasks.

- Assisted with reporting, data organisation, and technical troubleshooting.
- Developed strong communication, attention to detail, and teamwork skills.

KEY PROJECTS

Full-Stack Web Applications (Academic & Personal)

- Built full-stack applications using **React/Next.js** and **Django/DRF**.
- Designed RESTful APIs and integrated them with frontend components.
- Implemented PostgreSQL databases and authentication workflows.
- Used Git for version control and followed clean, maintainable coding practices.

Lumie're CNC & Printers – E-commerce Platform

- Developed backend API endpoints for products, users, and orders.
- Integrated frontend and backend components for a complete web solution.
- Focused on modular design, performance, and reliability.

EDUCATION

Bachelor of Computer Science

University of the People, USA | 2023 – Present

CERTIFICATIONS & TRAINING

- Business Development – Brooklyn City College (2022 – 2024)
- Software Development & Automation (Self-Directed Projects)
