

Roseline Dangazela

Web Developer

EMEA | Remote

roseline.danga@gmail.com | GitHub: <https://github.com/RoselineDC> | LinkedIn: <https://www.linkedin.com/in/roseline-dangazela-95b718324/>

PROFESSIONAL SUMMARY

Web Developer with experience building modern, scalable, and responsive web applications using **React, TypeScript, Next.js, JavaScript, HTML, CSS (SCSS)**. Skilled in creating dynamic components, translating Figma designs into user-friendly interfaces, and integrating content from headless CMS platforms such as **Sanity**. Experienced in collaborating with UX/UI designers, contributing to open-source projects, and maintaining high-quality code that emphasizes performance, accessibility, and scalability.

TECHNICAL SKILLS

- **Frontend:** HTML5, CSS3, SCSS, JavaScript (ES6+), React, Next.js, TypeScript
- **CMS & Content Management:** Sanity CMS, dynamic content integration, reusable components
- **Styling & UX:** Tailwind CSS, responsive design, accessibility (WCAG), Figma-to-code implementation
- **Version Control & Tools:** Git, GitHub, npm, Vercel
- **Performance & SEO:** Web performance optimization, SEO best practices, cross-browser compatibility
- **Collaboration:** Remote teamwork, designer handoff, documentation, code reviews

PROFESSIONAL EXPERIENCE

Junior Web Developer — Freelance / Projects

2023 – Present | Remote

- Developed modern web applications using **React, Next.js, and TypeScript** with a focus on component-based architecture.
- Configured and integrated **Sanity CMS**, building reusable components and dynamic content pipelines.
- Translated Figma and UX designs into responsive, pixel-perfect interfaces using CSS, SCSS, and Tailwind CSS.
- Optimized web performance and ensured accessibility compliance across devices.
- Collaborated with designers and developers remotely using Git workflows and documented code for scalability.

SELECTED PROJECTS

Content-Driven Web Platform (Sanity + Next.js)

- Implemented headless CMS integration using Sanity, connecting dynamic content to reusable React components.
- Ensured responsive and accessible layouts aligned with UX/UI designs.
- Optimized performance and SEO across multiple pages and devices.

Portfolio Website

- Built a personal portfolio to showcase web projects, including GitHub repositories and live demos.
- Implemented reusable React components with SCSS and Tailwind CSS.
- Integrated responsive design, cross-browser testing, and accessible UI components.

EDUCATION

Bachelor of Computer Science

University of the People, California | 2022 – Present

CERTIFICATIONS & TRAINING

- Software Engineering Bootcamp — ALX Africa (2022–2024)
 - Front-End Engineering Virtual Experience — Skyscanner (Forage)
 - Developer & Technology Apprenticeship — Accenture (Forage)
-

ADDITIONAL HIGHLIGHTS

- Experience building **high-fidelity web applications** using modern frameworks and responsive design techniques.
- Hands-on knowledge of **component libraries, TypeScript, and headless CMS platforms**.
- Familiarity with **Linux systems**, open-source workflows, and collaborative development.
- Strong problem-solving, debugging, and performance optimization skills for complex web interfaces.
