PROFESSIONAL SUMMARY

Web Developer with hands-on experience designing, developing, and maintaining responsive, secure, and scalable web applications. Strong proficiency in HTML5, CSS3, JavaScript, TypeScript, and modern front-end frameworks including React and Next.js. Experienced in backend development, RESTful APIs, database integration, performance optimization, SEO best practices, and cross-browser compatibility. Adept at working in Agile environments and collaborating with cross-functional teams to deliver high-quality digital solutions aligned with business objectives.

TECHNICAL SKILLS

- **Languages:** HTML5, CSS3, JavaScript (ES6+), TypeScript, Python, SQL
- **Frontend Frameworks:** React.js, Next.js, Angular (basic), Vue (basic)
- **Backend Technologies:** Node.js, Express.js, Python, PHP (basic)
- **Databases:** PostgreSQL, MySQL, MongoDB, SQLite
- **APIs & Integrations:** RESTful APIs, JSON, Third-party API integrations
- **CMS:** WordPress (customization & content updates), Headless CMS
- **Tools & Platforms:** Git, GitHub, Jira, Confluence, Docker, Figma
- **Cloud & DevOps:** AWS (basic), Vercel, CI/CD pipelines
- **Web Standards:** SEO optimization, Web accessibility (WCAG), Secure coding practices

PROFESSIONAL EXPERIENCE

Web Developer — Freelance & Project-Based

2022 – Present | Remote

- Developed and maintained mobile-first, responsive web applications using HTML, CSS, JavaScript, and React.
- Converted UI/UX designs from Figma into production-ready, pixel-perfect web components.
- Built and integrated backend services and REST APIs using Node.js and Express.
- Optimized website performance, load times, and scalability through efficient rendering and code splitting.
- Implemented SEO best practices and accessibility standards to improve discoverability and usability.
- Performed regular maintenance, bug fixes, security updates, and content changes.
- Tested and debugged applications across multiple browsers and devices to ensure compatibility.
- Collaborated with designers and stakeholders in Agile/Scrum environments.

PROJECTS

Business Services Web Platform

- Designed and built a full-stack web platform using React, Next.js, and Node.js.
- Implemented RESTful APIs, authentication, and database integration with PostgreSQL.
- Ensured responsive design, accessibility compliance, and optimized performance.

Automated Tender & Content Management System

- Developed a web system combining frontend dashboards and backend automation services.
- Integrated scraping services, APIs, and scheduled background jobs.
- Maintained secure data handling and optimized application scalability.

CMS-Driven Website (WordPress)

- Customized WordPress themes and managed content updates.
- Applied SEO improvements and performance optimizations.

EDUCATION

Bachelor of Computer Science

University of the People, California, USA
2022 – Present

CERTIFICATIONS & TRAINING

- Software Engineering Program — ALX Africa (2022–2024)
- Front-End Engineering Virtual Experience — Skyscanner (Forage)
- Developer & Technology Apprenticeship — Accenture (Forage)
