PROFESSIONAL SUMMARY

Motivated technology student and aspiring AI professional with a strong foundation in computer science, programming, and data analysis. Skilled in Python, JavaScript, and data management with hands-on experience building projects that improve workflows and systems. Highly detail-oriented, curious, and eager to contribute to AI development and training initiatives.

TECHNICAL SKILLS

- **Programming & Scripting:** Python, JavaScript, TypeScript, Node.js
- **Data & Analysis:** MySQL, Excel, Tableau, data cleaning, evaluation, reporting
- **AI & Automation:** Experience with AI model testing, dataset structuring, and feedback evaluation
- **Web Development:** React, Next.js, HTML, CSS (SCSS), responsive design
- **Version Control & Tools:** Git, GitHub, collaborative workflows
- **Problem-Solving & Critical Thinking:** Analytical evaluation, structured reasoning, attention to detail

---

PROJECT EXPERIENCE

AI Dataset Evaluation Project (Personal/University Project)

- Reviewed and analyzed AI model outputs to identify inconsistencies and improve dataset quality.
- Structured feedback and annotations to enhance training data accuracy for machine learning experiments.

Automated Tender Scraper

- Built a Python and Next.js project to extract, clean, and store data in MySQL databases for automated notifications.
- Implemented data validation and normalization to ensure integrity and reliability of information.

EDUCATION

Bachelor of Computer Science
University of the People, California | 2022 – Present

ADDITIONAL HIGHLIGHTS

- Strong attention to detail, analytical thinking, and ability to follow structured guidelines.
- Experience working independently on projects and meeting deadlines in academic and freelance settings.
- Quick learner, adaptable to new technologies and AI development processes.
- Passionate about contributing to AI model improvement and structured learning systems.
