PROFESSIONAL SUMMARY

JavaScript Developer with experience in front-end and back-end web development, CI/CD pipelines, automated testing, and enterprise application support. Proficient in JavaScript, React.js, Node.js, and backend integrations. Skilled in debugging, performance optimization, and collaborating in Agile environments. Eager to contribute to innovative projects in modern tech environments and gain exposure to AI/ML technologies.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), TypeScript, Python, SQL, HTML, CSS
- **Frontend:** React.js, Next.js, Angular (basic)
- **Backend:** Node.js, Express.js, Java (Spring Boot basics)
- **Databases:** PostgreSQL, MySQL, MongoDB
- **CI/CD & Tools:** GitHub, Jenkins, Azure, Docker
- **Testing & Quality:** Automated testing, linting, debugging, performance optimization
- **APIs & Integrations:** RESTful APIs, JSON, Third-party service integration
- **Additional:** Agile/Scrum collaboration, Documentation, Issue resolution

PROFESSIONAL EXPERIENCE

JavaScript Developer — Freelance & Project-Based

2022 – Present | Remote

- Developed and maintained responsive web applications with JavaScript, React.js, and Node.js.
- Built and integrated RESTful APIs, automated backend processes, and optimized application performance.
- Participated in CI/CD pipelines using GitHub, Jenkins, and Azure for streamlined deployment.
- Implemented automated testing, linting, and debugging procedures to ensure high-quality deliverables.
- Collaborated with designers, developers, and stakeholders in Agile environments for project planning and delivery.

PROJECTS

Enterprise Task Management Dashboard

- Developed a dashboard using React.js frontend and Node.js backend to manage tasks and projects.
- Integrated RESTful APIs and database connections using PostgreSQL for real-time data updates.
- Implemented automated testing, error logging, and performance monitoring for enterprise readiness.

Personal Portfolio & API Integration Project

- Created a personal portfolio website demonstrating front-end skills, API usage, and backend integration.
- Applied CI/CD processes for automated deployment and updates using GitHub Actions.

EDUCATION

Bachelor of Computer Science
University of the People, California, USA
2022 – Present

CERTIFICATIONS & TRAINING

- Software Engineering Bootcamp — ALX Africa (2022–2024)
- Front-End Engineering Virtual Experience — Skyscanner (Forage)

- Developer & Technology Apprenticeship — Accenture (Forage)
- Real-time Systems & AI/ML mini-projects with backend orchestration and frontend dashboards
